TECHNICAL SKILLS

Microservices Spring Boot
Java Github Copilot Agent
Gemini Cursor Hibernate
GIT ReactJS HTML
CSS JavaScript Oracle
PostgreSQL H2 AWS
Jenkins Docker
Kubernetes Python
Kibana UC4 MongoDB
Redis Debugging
Data Structures & Algorithms

EDUCATION

📅 2016 - 2020
📍 Government Engineering College, Bilaspur
🎓 Bachelor of Technology

Computer Science and Engineering
CPI : 9.0/10

SOFT SKILLS

Good Learner Leadership
Team Spirit Collaborative

CERTIFICATIONS

AWS Certified Cloud Practitioner
Microservices L2
Springboot L2

EXPERIENCE

Verizon **Engineer-III Consultant**
06/2025-Present *Bangalore, India*

- Leveraged Claude 4.6 Sonnet to automate environment setup and test account generation, cutting manual operational overhead by 80%.
- Successfully delivered Perks and ST-5 project, including system error fixes that enhanced customer experience.

Societe Generale **Software Engineer**
04/2022-06/2025 *Bangalore, India*

- Led the migration of a monolithic WAR-based application (manual deployment) to a modern microservices architecture reducing deployment time by 70%, and improving maintainability.
- Implemented caching mechanisms to optimize data retrieval, resulting in 79% reduce in application runtime.
- Optimized database access by using projections and query pagination, leading to 60% faster API responses.
- Implemented database refresh for non-production environments using S3 buckets.

Wipro Limited **Project Engineer**
03/2021-04/2022 *Chennai, India*

- Led the successful migration of Mobile Check Deposit and Automated Investor Payments to a modernised Rails structure.

PROJECTS

Online Retail Store 🔄

- Designed and built a **microservices** based retail store using **Spring Cloud (Eureka, Hystrix, API Gateway, Config Server)** and **Spring Data JPA**, demonstrating inter-service communication across **5+ independently deployable services**.

Customer Account Tracker 🔄

- Built a **Spring MVC**-based banking application with UI to manage customer accounts and simulate fund transfers between customers, covering **5 core operations** with input validation.

Conversational Question Answering Bot 🔄

- Developed an interactive chatbot in **Python** using BERT-based NLP model achieving a 90 % accuracy rate in resolving college-related queries without human intervention.

ACHIEVEMENTS

- 🏆 Awarded **Spot Award** by senior leadership for outstanding contribution to the database refresh process.
- 🏆 Served as the **Team Lead** of the Developers Club at GECCB.
- 🏆 **Top 400 performers** in a national-level hackathon by Bridgingo.
